

# LG VIEW

## Version 1.24

### PC software to view Audit Files

#### Introduction

LA Gard 66E series electronic combination locks record events into an audit file. With this program and the Audit Interface Cable you are able to download this audit file and display it on a computer screen.

You have the ability to filter the events in order to analyze them. You also can save the audit file, reload it at a later date and send your results to a printer. The software requires a computer running at least Windows 95 and at least 4MB free hard disk space. A free COM port is needed to connect the Audit Interface Cable.

#### Installation

1. Start Windows and insert the software diskette 1/2 into drive A.
2. click on Start on the Task bar and select Run
3. from the Run dialog box, select (or type) A:\SETUP. Click OK.
4. Follow the on-line instructions.
5. At the end of the installation, a shortcut is created
6. Click on Start on the Task bar and select Programs
7. Click on LaGard and choose LGView program

The screenshot shows the LGVIEW application window. At the top, there is a menu bar with 'File', 'Actions', and 'Configuration'. Below the menu bar, there are search filters: 'Date search.', 'Search event', and 'Search user'. A 'Reset filter(s)' button is also present. The main area contains a table with the following data:

#	Date	Day	Time	Event	User	Status
1	26-05-2004	WED	15:09	Audit sent	Manager	Ok
2	26-05-2004	WED	14:53	Audit sent	Manager	Ok
3	26-05-2004	WED	14:52	Audit sent	Manager	Ok
4	26-05-2004	WED	14:51	Audit sent	Manager	Ok
5	26-05-2004	WED	14:50	Audit sent	Manager	Ok
6	26-05-2004	WED	14:48	Audit sent	Manager	Ok
7	26-05-2004	WED	14:46	Audit sent	Manager	Ok
8	26-05-2004	WED	14:45	Audit sent	Manager	Ok
9	26-05-2004	WED	14:44	Lock closed	Unknown	Ok
10	26-05-2004	WED	14:44	Lock opened	Manager	Ok
11	26-05-2004	WED	14:44	RTC initiated	Unknown	Ok
12	26-05-2004	WED	14:44	Power Up	Unknown	?
13	26-05-2004	WED	14:40	Audit sent	Manager	?
14	26-05-2004	WED	14:39	Audit sent	Manager	?
15	26-05-2004	WED	14:38	Audit sent	Manager	?
16	26-05-2004	WED	14:38	RTC initiated	Unknown	?

On the right side of the window, there is a control panel with the following buttons: 'STOP', 'Start acquisition from lock', 'Load...', 'Save', 'Show', 'Infos', 'Print...', and 'Quit'. A 'Right click to filter' button is located at the bottom of the window.

- Stop acquisition
- Start acquisition from lock
- Load audit file from disk
- Save audit file to disk
- Show events
- Show lock information
- Print events
- Quit program

8. You must now define the serial port to use in order to download audit files from lock. Note that you need the Audit Interface Cable to connect the COM port of your PC to the lock (keypad TAG reader). Go To the configuration menu, choose the correct port.

9. Now define the Daylight savings time Settings.

Go to configuration menu, choose Daylight Savings Time.

DST Must be active to let LGView correct date and time when downloading from lock.

## Downloading audit file from lock

1. Connect the Audit Interface Cable to the PC and to the Tag Reader of the Lock Entry
2. choose start acquisition from the Actions Menu or click on the safe icon.
3. on the status bar (window bottom), a line counter is displayed. Each received line increases this counter.
4. You can stop acquisition anytime by clicking STOP.
5. When acquisition ends you see the events on the Main Screen.
6. Click on Infos to see Lock Status
7. Click on Save to save the audit file to the hard drive of your PC.

## Open Audit File

Click on Load button and choose an audit file. There are Demo Files in the LaGard folder.

The audit file extension is LOG.

The Main Screen shows the events that are stored in the file.

If the file does not contain events, a smaller window gives you information on acquisition date and time, and also the lock configuration and status.

Note that this window (below) can be displayed by clicking on Infos

The screenshot shows a dialog box titled "TL11 Lock Status". It is divided into several sections:

- Acquisition Date/Time:** Date: 26-05-2004, Time: 15:09
- Lock Infos:** SN#: 7TL, Ver.: 1.22
- Time delay:** Delay: 0, Window: 1
- Configuration:**  Audit memory,  Real Time Clock
- Compos:** Length: 8, Users: See list
- Features:**  Dual,  Override,  Duress
- Wrong tries:** 0
- No Manager Reset** (text label)

Buttons at the bottom: Ok, Print...

## Users Status

- E User active
- D User disabled
- User does not exist
- B Blocked, user can not be activated by manager
- I Manager/Control code initialized (change code to activate features)

The columns in the Main Screen can be used to filter events. Select a row that contains your filter criteria (i.e. Master), and then right click on the field that contains the criteria. The Column switches to red color, indicating active filter. Now only events with the filter criteria are displayed.

You can add filter, using same method with columns Date, Day, Event and User.

To reset filter, right click again on selected column. To reset all filters, click on Reset filter(s).

Using Search events and Search user fields, you can search the first row containing selected event or user.

By clicking on Date Search a calendar opens. Choose any date and the Main Screen displays only events from that date.
