

# Vertical Cable Manager

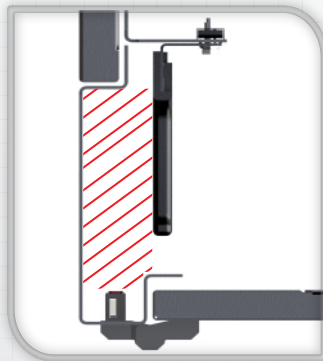

Cable Management

### Features

- Allows controlled management of cables so airflow is not effected
- Modular design for maximum efficiency
- Available in 6RU increments or one 42RU length
- Combine multiple units to form a continuous set of fingers

TOP VIEW

(Shaded area becomes cable storage in SRA 600W racks)

(using existing mounting screws to mount ontop of equipment)

Note: Images are for indicative use only, and may vary from actual product.

Suitable for SRA and all mounting rails (19", 21", 23"). The U shape mounting slots allow for installation ontop of existing equipment. Alternitavely, the centre section of the bracket has been cut out to allow room to mount around equipment. When fitted in a 600 wide SRA rack the manager utilises the space in the corner of the rack (as seen above).

### Details

The mounting brackets are made from 1.5mm powdercoated zinc annealed steel. The fingers are made from ABS moulded plastic.

### Colour (Dulux Part No)

Black  
#90132679
