SERIES 11 OPEN FRAME

Applications

SRA Solutions 2 and 4-Post open frame racks provide a robust, cost-effective solution for supporting the needs of the data centre and telecommunications rooms, to deliver improved network performance while reducing real estate costs.
The Series 11 modular rack system is compatible with SRA's extensive range of vertical and horizontal cable managers.

High-Performance Design

Series 11 Vertical Cable Management is a reliable solution for managing high-density cabling (Cat6a) in conjunction with our 2 and 4 Post open frame racks, delivering increased performance to match the demands of today's data centre, enterprise or network applications.

Featuring easy-to-use dual 2-PNT latching doors, the Series 11 Vertical Cable Managers are available in single-sided, double-sided and combination configurations in three widths to suit variety of high-density requirements.

TECHNICAL INFORMATION

Part number	RU	Description	Height (mm)	Width (mm)	Depth (mm)
133213	45	2-Post Open Frame Rack	2110	514.8	132
133214	45	Vertical Cable Manager with Dual Hinged Door, Long T-finger (dual row)	2110	150	320
133215	45	Vertical Cable Manager with Dual Hinged Door, Long T-finger (dual row)	2110	300	320
133216	45	Vertical Cable Manager with Dual Hinged Door, Long T-finger (dual row)	2110	400	320
132867	52	2-post Open Frame Rack	2425	514.8	132
133183	52	Vertical Cable Manager with Dual Hinged Door, Long T-finger (dual row)	2425	150	320
132865	52	Vertical Cable Manager with Dual Hinged Door, Long T-finger (dual row)	2425	300	320
133217	52	Vertical Cable Manager with Dual Hinged Door, Long T-finger (dual row)	2425	400	320

Packaging: Package includes 4-post rack, assembly hardware, and installation instructions.

ACCESSORIES

Horizontal Cable Management	
132110	1RU Horizontal Cable Manager with Cover - 190mm fingers
132112	1RU Horizontal Cable Manager with Cover - 100mm fingers
132168	2RU Horizontal Cable Manager with Cover - 190mm fingers
132496	2RU Horizontal Cable Manager with Cover - 100mm fingers
132111	4RU Horizontal Cable Manager with Cover - 190mm fingers
Accessories	
133218	650mm - 1000mm, 4-Post Frame Extension Kit
133375	555mm - 800mm, 4-Post Frame Extension Kit
133376	800mm - 1200mm, 4-Post Frame Extension Kit
132929	Low Profile Cable Waterfall
133017	Low Profile Cable Waterfall Half
133026	Vertical Manager snap-in cable spool 150mm deep
133219	45RU 4-Post Open Frame Rack cable tray 300mm wide
133220	52RU 4-Post Open Frame Rack cable tray 300mm wide
132800	45RU Open Frame Rack PDU mounting tray
133114	52RU Open Frame Rack PDU mounting tray

SERIES 11 OPEN FRAME

Space Saving — Providing flexibility in design and layout while reducing space and overall footprint within communications and server rooms

Flat-pack design — Shipped unassembled for ease of transport including transfer on stairways and in elevators

**Easy access** — The open design allows for easy access to active equipment and cabling

Airflow — Enclosed racks can create an environment for heat to build up. Open frame racks on the other hand, allow for unrestricted airflow, thus preventing heat build up

Enhanced cable management — It can be a challenge trying to manage patch leads and cables within an enclosed server or network rack, however with an open frame rack and vertical cable management, it's much easier as you can run the cables without any obstacles from doors or panels

4 POST RACK SYSTEM

1	45RU 2 and 4-Post Open Frame Rack	**5**	45RU Vertical PDU Mounting Tray
2	Low Profile Cable Waterfall Support Tray	**6**	4RU Horizontal Cable Manager
3	45RU x 300mm Vertical Cable Management System	**7**	Cable Management Spool
